9/20/05	A05-02-027	SBC Communications Inc. and AT&T Corp., for authorization to transfer control of AT&T Communications of California (U 5002-C), TCG Los Angeles, Inc. (U 5462-C), TCG San Diego (U 5389-C), and TCG San Francisco (U 5454-C) to SBC, which will occur indirectly as a result of the merger of AT&T with a wholly-Owned Subsidiary of SBC, Tau Merger Sub Corporation.

Summary: On September 15, 2005, Jeff Compton, Vice President - Regulatory of Telscape Communications, Inc. (Telscape) met with Lester Wong, advisor to Cmmr. Peevey, in San Francisco. Also present was John Clark of Goodin, MacBride, Squeri, Ritchie & Day, LLP, representing Telscape. Confidential written materials used during the meeting have been submitted as an attachment to Telscape's motion for protective order. Compton and Clark addressed Telscape's recent proposal that the Commission require a fifty percent reduction in the price for unbundled two-wire residential unbundled loops as a condition to approving the merger between AT&T and SBC. Compton and Clark observed that that with the elimination of UNE-P, the ability of competitive local exchange carriers (CLECs) to compete successfully for basic telephone service will require them to transition to a UNE-L strategy; however, at current loop prices, the cost structure faced by a CLEC seeking to serve mass residential customers does not permit the CLEC to attract the capital it needs in order to install facilities. Telscape acknowledged that VOIP will eventually replace plain old telephone service, but that affordable access to necessary broadband service is still a number of years away for many customers. Telscape representatives explained that, while TELRIC-pricing rules would ordinarily prevent the Commission from unilaterally imposing loop prices reductions, requiring SBC's agreement to the loop discount as a condition to approving the merger would be permissible and, legally, no different from other types of conditions the Commission has imposed in exchange for approving other mergers in the past.

ORA representatives expressed support for the two-year addition to the 1999-2002 period of the Verizon audit ordered in D02-10-020, which both DDs grant. ORA also expressed strong support for how the alternate DD resolves two key issues. ORA also described the goals and processes of the audit ordered by D02-10-020. ORA noted that, if a cap is imposed on a comprehensive audit that includes issues relating to Phase III of NRF and the proposed Verizon-MCI merger, such a cap must be increased beyond the \$1 million referenced in Cmmr. Kennedy's DD.
